LOCATION
Timișoara, Romania · Remote

SKILLS

Backend

C# · .NET / .NET Core · ASP.NET Core Web API · REST APIs · Entity Framework Core · WCF · Clean Architecture

Data

SQL Server · MongoDB

Frontend & Desktop

Angular · React · TypeScript · WPF

Cloud & DevOps

Azure · Azure DevOps · AWS · Git

Practices

SOLID · Design Patterns · Unit Testing · Agile / Scrum · Mentoring

LANGUAGES

Romanian	Native
English	Professional (C1–C2)

COURSES

iQuest C# Remote Learning, Modules 1–2
2019–2020 · OOP, SOLID, patterns, EF, Web API, MVC

NetRom Software Academy
2019 · REST APIs with .NET and cloud

NetRom Software Testing Academy
2020 · QA, manual & automated testing

NetRom UI/UX Course

PROJECTS

C compiler from scratch
C/C++ · source

ASP.NET MVC web apps
Code-first & database-first EF · source

Mircea-Alexandru Barbu

.NET Backend Developer · Full Stack

PROFILE

.NET developer with 5+ years at NetRom across backend and full stack roles. On the backend I build REST APIs with C#, ASP.NET Core and SQL, currently for supply chain operations. On the frontend I have delivered production features in Angular and React, on Azure and AWS. I also teach: I presented NetRom's 2026 .NET Summer Camp and hold a teaching qualification.

EXPERIENCE

NETROM SOFTWARE · 2021 – PRESENT

.NET Backend Developer — Apr 2026 – Present
Timișoara · Hybrid · Logistics & supply chain

- Build and maintain REST APIs in C# for inventory, stock movement and supply chain.
- Design and optimize SQL databases for fast, reliable data access.
- Apply clean architecture for scalable, maintainable services in a regulated domain.
- Turn business requirements into technical solutions with cross-functional teams.

.NET Summer Camp Presenter — Jun 2026
Timișoara · On-site · 1 month

- Taught C# and .NET fundamentals through live coding and my own exercises.
- Mentored participants until they built working applications.
- Shared real-world backend practices from day-to-day industry work.

.NET Developer — Oct 2025 – Apr 2026
Timișoara · Hybrid

- Extended native Windows apps on .NET Framework and .NET.
- Built WCF services and WPF interfaces backed by SQL Server.
- Packaged client releases with InstallShield.

.NET & Angular Full Stack Developer — Aug 2023 – Oct 2025
Craiova · Hybrid

- Built backend features in C# and ASP.NET Core with matching Angular UI modules.
- Shipped on Azure, using Azure DevOps for repos, boards and pipelines.

.NET & React Full Stack Developer — Oct 2021 – Aug 2023
Craiova · Hybrid

- Built ASP.NET Core REST APIs and SQL data layers for React front ends.
- Deployed and ran application services on AWS.

.NET Apprentice Developer — Jun – Jul 2021
Craiova · On-site

- Built a web app with ASP.NET Core, EF, Identity and SQL Server (UnblockMe).

FORVIA HELLA · 2019

Java Developer Intern · Embedded Software Apprentice — Jan – Jun 2019
Craiova · On-site

- Developed embedded software for a car air-conditioning system.
- Built Java applications during the internship.

EDUCATION

Engineer's Degree, Computers and Information Technology — 2017 – 2021
University of Craiova, Faculty of Automation, Computers and Electronics · taught in English

- GPA 9.26/10; thesis graded 10/10: *Image-based Steganography Applications using Watermarking Techniques*.
- Core subjects: OOP, databases, web applications, data security.
- Psychopedagogy module: qualified to teach up to high school level; covered learning psychology, lesson planning and assessment.

High School Diploma, Mathematics & Informatics — 2013 – 2017
Colegiul Național „Ștefan Velovan", Craiova
